22th of May 2020

Dear Ladies and Gentlemen,

The Slovenian Club for Toy Breeds, which members are fanciers, owners and breeders of dogs of the FCI group 9 (except the Tibetan breeds) joins the breed clubs all over the world in their concern because of the new situation in the cynology in Holland and mostly because of the unenviable position of our colleagues and friends, breeders in Holland.

We hope that there will come soon to the constructive dialogue between The International Cynological Organization (FCI) and The Dutch Kennel Club, and that the results of these negotiations will be mediated as soon as possible to the Dutch Government, which will realise that their action was too hasty and excessive, as well as harmful and that they will revoke it hopefully.

Otherwise we will be forced to suggest to the Cynological Society of Slovenia not to recognize the pedigrees issued by the Dutch Kennel Club after May 18th, 2020 for dogs of those 12 breeds. One of our fundamental task is to preserve the breeds which are under the patronage of our club.

In the hope that at the end the reason will prevail and there will be a constructive solution to the problem, we're sending you our best regards.

Yours sincerely.

Željko Gajić
President of the SKPP
